

Global concern over the demerits of chemicals in agriculture has diverted the attention of researchers towards using the potential of PGPR in agriculture. This book contains many useful and important research papers pertaining to the use of bio-fertilizers and bio-fungicides for sustainable agriculture.

This volume is presented in an easy-to-understand manner, with well-illustrated protocols on the production to commercialization of PGPR. The chapters on commercial potential, trade and regulatory issues among Asian countries are worthwhile additions. As such, this book will prove useful for students, researchers, teachers, and entrepreneurs in the area of PGPR and its allied fields.

Dr. Munagala S. Reddy is a Professor, an entrepreneur and consultant at Auburn University, USA. He is the founding Chairman of the Asian PGPR Society.

Dr. Riyaz Sayyed is Assistant Professor at PSGVP Science College, SHAHADA, India. He is an Executive Board Member of the Asian PGPR Society.

Rodolfo O. Ilao is the Director of ARMRD of PCAARRD, Philippines. He has worked for effective implementation of agricultural R& D programs.

Dr. Hari K. Sudini is a Groundnut pathologist at ICRISAT, India. He currently serves as General Secretary of the Asian PGPR Society.

Dr. Patricio S. Faylon is an Executive Director of PCAARRD, Philippines, and is responsible for leading the Philippine National Agriculture System.

Dr. K. Vijay Krishna Kumar is an Assistant Professor at ANGRAU, Hyderabad, India. He is an Executive Board member of the Asian PGPR Society.

Dr. William D. Dar is the Director General of ICRISAT, India. He has successfully led his research programs to alleviate the conditions of the poor farmers.

Adoracion B. Armada is a Senior Science Research Specialist at PCAARRD, Philippines. She is responsible for planning, development and institutional linkages.

Dr. William D. Batchelor is a Dean for College of Agriculture and Director for Alabama Agricultural Experiment Station at Auburn University in USA and a Patron for Asian PGPR Society.

Dr. S. Gopalakrishnan is a Senior Scientist for Biological Control Unit at ICRISAT in India and an Executive Member of Asian PGPR Society.

Jointly organized by Asian PGPR Society for Sustainable Agriculture and The Philippine Council for Agriculture, Aquatic and Natural Resources Research and Development of the Department of Science and Technology (PCAARRD-DOST).
